JOB DESCRIPTION - CITY DEVELOPMENT

IDENTIFICATION

Post Title: Building Services Technician - Mechanical Post Ref:
Section: Building Surveying Services Grade: 5-9

Responsible to: Senior Building Services Technician (Mechanical)

Responsible for: Trainees within the Building Services

(Mechanical) Team

JOB PURPOSE

To provide a consultancy service for mechanical engineering to the Council, its service departments and to external public agencies, as directed by the Team Leader - Building Surveying Services.

To assist with design, administer and co-ordinate mechanical services on City Council corporate contracts and projects, from inception to completion and carry out management responsibilities in areas as directed by Team Leader and Senior Building Services Technician (Mechanical) - Building Surveying Services.

To represent the Team Leader and Senior Building Services Technician (Mechanical) - Building Surveying Services on construction projects and maintenance services projects emanating from the Division, to ensure compliance with maintenance and design specifications, materials and workmanship standards.

PRINCIPAL WORKING CONTACTS

Head of Design and Property, Property Manager, Team Leader and Senior Building Services Technician (Mechanical) - Building Surveying Services and staff that form the Building Surveying Services team, including Property Officers, Building Surveyors, Building Safety Officers, Mechanical and Electrical facilities management and Clerk of Works.

Professional and Technical Staff within the Architectural Services Team.

Staff at all levels of the City Development Department together with Client Service Departments, other Councils, outside agencies and consultancies, general public, etc, in relation to work carried out.

Senior Officers of the Council.

MAIN DUTIES

Set up, manage and monitor a range of mechanical building services contracts works relating to capital & minor works, maintenance and domestic projects including any of the current Health and Safety Contracts.

As required, supervise Trainee staff employed on services design, maintenance and installation projects ensuring that acceptable professional standards and performance levels are set and maintained.

In relation to the overall plans and priorities of the Division, set objectives and agree work targets with the Senior Technician and or Building Surveying Team leader, monitor progress and take appropriate corrective action, as required.

Professional/Technical

Provide Technical and Professional advice to the Design and Property Department, other Council Departments and external public agencies, as appropriate.

Maintain close liaison with principal working contacts in the Department, the Council and other relevant agencies, utilities and authorities.

Assist with design of mechanical building services revenue works, and developing the design to best meet Client requirements.

Prepare or assist in the preparation of preliminary and detailed designs for mechanical service installations and replacements, incorporating necessary energy efficiency and sustainability measures.

As required taking brief from Client Department, prepare of sketch proposals, assist with probable cost production and other estimates in collaboration with Quantity/Building Surveyor.

Prepare or assist with final designs, contract drawings, specification, etc, as required and assist with procurement of projects including assessment of pre-qualification questionnaire and tender submissions.

Carry out supervision, contract administration and quality control of a wide range of Mechanical installation work.

Carry out duties which may include Project Management, CDM Co-ordination (including preparing Pre-Construction Information), reviewing Construction Phase Plans and reviewing and highlighting concerns with any Risk Assessments and Method Statements. Partnering Facilitation, Quality Management, Environmental Management or other areas of major responsibility in regard to the service provided by the Division.

Ensure that work carried out complies in all respects with the relevant requirements of the Health and Safety at Work Act, its associated regulations, including the Construction (Design and Management) Regulations and the Department's Health and Safety Manual. Assisting in the maintenance and enforcement of the Division's Health and Safety policies.

Ensure that all procedures adopted in conducting the work of the Corporate Contact Team comply in all respects with the Department's Quality Management System.

Set up, manage and monitor a range of mechanical building services maintenance contracts (including Health and safety contracts), ensuring planned and responsive maintenance is carried out efficiently and effectively.

Set up, manage and monitor a range of minor works and revenue projects from inception through to commissioning, handover and defects monitoring.

As directed, assist in the preparation of policies relating to sustainability and Energy Conservation.

Representing the Head of Design and Property at Council and other meetings as required.

Implementation of the Council's policies as relevant to the Division.

Arrange the undertaking of surveys in accordance with briefs from clients or other instructions from the Senior Technician, Building Surveying Services Team Leader, Property Manager and prepare any reports and statements which may be necessary.

Assist with the monitoring and analysis of defects and breakdowns and liaise with the appropriate officers and staff in preparing recommendations for plant replacements, new installation and improved maintenance methods and materials.

Undertake any relevant duties and responsibilities required by the Senior Technician, Team Leader Building Surveying Services, Property Manager, Head of Design and Property and the Executive Director of City Development.

Respond to call outs out with normal working hours in emergency situations. Participate in the rota to provide 24hr call out to all Council Properties.

Personal

Responsible for undertaking training, including CPD, as required and agreed by the Council and the postholder's line manager

OTHER DUTIES

This job description is a broad picture of the post at the date of preparation. It is not an exhaustive list of all possible duties and it is recognised that jobs change and evolve over time. Consequently, this is not a contractual document and the postholder will be required to carry out any other duties to the equivalent level that are necessary to fulfil the purpose of the job.
